

## **Notes for Contributors to the Sub-forum**

### **“Challenge and Strategy for Energy Sustainable Development and Climate Change”, the Third World Forum on China Studies**

The third “World Forum on China Studies” will be held in September, 2008 in Shanghai, which is a high-level and open academic platform sponsored by Shanghai Academy of Social Sciences.

The sub-forum “Challenge and Strategy for Energy Sustainable Development and Climate Change” (hereunder referred to as Energy Sub-forum) will be co-organized by Center for Eco-economy and Sustainable Development, Shanghai Academy of Social Sciences, Energy Research Institute, China National Development and Reform Commission, and Journal of Urban Technology, the US. And the Organizing Committee of Energy Sub-forum will be consisted of the faculty members from these three institutions.

The topics of panel discussions under the sub-forum include:

**The Strategy China Choose to Face the Challenge of Energy Sustainable Development and Climate Change**

**The Market Mechanisms and Policies to Enhance Energy Efficiency: International Experiences and Chinese Solutions**

**The Policy Package for Alternative Energy Exploration and Utilization: International Experiences and Their Implications for China**

**The International Cooperation to Face the Challenge of Energy Sustainable Development and Climate Change**

The Organizing Committee of Energy Sub-forum is collecting the articles on the four aforementioned topics. The authors of the chosen articles will be invited to present their papers on the Sub-forum. After the Sub-forum, the Center will compile

the Proceedings of it containing all the texts of speech and papers presented before the audience of it and the most important ones of the other articles contributed to us. In addition, some excellent articles will be published in *The Journal of Urban Technology*. So the articles concerning any of the above-mentioned topics are warmly welcomed.

If the contributor/author keeps the following points in mind, his/her article will be preferred by the Editors: When the author discusses about “The Policy Package for Alternative Energy Exploration and Utilization”, he/she is suggested to take Shanghai as the main example to conduct case study.

The author is suggested to contribute both the Chinese and English version of the article at the same time.

The author should submit the article through e-mail and send a hard copy to us. If the author contributes both the Chinese and English version of the article, he/she should send a hard copy of each version to us respectively. The Chinese article should contain 8, 000~12, 000 Chinese characters and the English one should contain 5, 000~8, 000 words, adopting American spelling. Articles illustrated with charts, graphs and graphics are welcomed and encouraged.

Before you send the paper, please submit the electronic version abstracts of the article, respectively in Chinese and English by the date of May the 30<sup>th</sup>, which contain 300-500 characters or words.

The electronic version of the article should be submitted to the email-address [susdev@sass.org.cn](mailto:susdev@sass.org.cn).

The hard copy of the article should be submitted to Center for Eco-economy and Sustainable Development, Shanghai Academy of Social Sciences, Room 415, 622/7 Huaihai Road (M), Shanghai, China. Zip Code: 200020.

\*Note to Authors: Please make sure your contact address information is clearly visible both in the e-mail and on the outside of all packages you are sending to Editors. The article should be submitted by the date of June the 30<sup>th</sup>, 2008.

### **Copyright**

It is a condition of publication that authors assign copyright or license the

publication rights in their articles, including abstracts, to Center for Eco-economy and Sustainable Development, Shanghai Academy of Social Sciences. This enables us to ensure full copyright protection and to disseminate the article, and of course the Proceedings of the Sub-forum, to the widest possible readership in print and electronic formats as appropriate. Authors may, of course, use the article *after* publication without prior permission from Center for Eco-economy and Sustainable Development, Shanghai Academy of Social Sciences, provided that acknowledgement is given to the Proceedings of the Sub-forum as the original source of publication. Authors are themselves responsible for obtaining permission to reproduce copyright material from other sources.

### **How to Prepare a Bibliography**

To accommodate our goal of including citation apparatus, but making it unobstructive to non-specialists, authors are requested to minimize using explanatory footnotes and to use the following guidelines for citations:

1. Put all references on a separate page. If you submit an English article, please arrange the references alphabetically according to the last name of the author, do not invert the names of the authors, and put the last name at the end of the author's name. As to the English references, please refer to *the Journal of Urban Technology*.
2. Number all the references consecutively, and the number should be put in a square bracket (for example, “[1]”).
3. When citing a reference in the text, simply put the number of the reference in a square bracket in the appropriate place in the text. When quoting directly, put the abbreviation p. and the page number of the quotation in a parenthesis just following the square bracket (for example, “[1] (p. 33)”).
